CARBON, ALBERTA, THURSDAY, JUNE 5, 1930

\$2.00 A YEAR IN ADVANCE

THIS WEEK AT THE CHAUTAUQUA

The Chautauqua tent arrived in Carbon this week, Monday, and by Tuesday night it was put up and the seats arranged. The big tent has a seating capacity of over 700 and if needed, more seats can be added.

The first program was held in the tent last night, this performance being the play "Broken Dishes," which was presented by the Martin-Brwin Players of Canada. Judging by this performance the Chautauqua program promises to be the best ever shown on the Canadian Chautauqua circuit.

The following is the program for the balance of the Chautauqua performance:

This Afternoon, Thursday—Musical—Herbert Petrie & Co. Travelogue—"Under the Southern Cross" Constance Neville-Johns.

Friday Afternoon—Universal Specialties—"Allied Arts Quartette" Featuring Fern Casford and French Sisters.

Friday Evening—Gems of word and music—"Allied Arts Quartette" Featuring Joe Marks, Canadian violinist. Lecture "Stop! Look! and Listen!" by Dr. H. B. Burns.

Saturday Afternoon—A play for the children "Jack and the Beanstalk"—Marguerite Belland and Cast.

Saturday Evening—The Old Favorite "Pollyanna"—Lawrence Davis, Elizabeth Dorothy Haynes, Marguerite Belland and Cast.

DOMINION ELECTION IN JULY

In the Speech from the Throne delivered on May 30th in the Senate chamber, His Excellency the Governor-General announced his intention of causing parliament to be dissolved immediately following prorogation. This action was being taken, the speech said, "in order to permit of Canada being represented at the Imperial Conference" and the Imperial Economic Conference, and to afford ministers of the Crown an opportunity to prepare for the work of these conferences.

The Dominion Election will have to be held on a Monday and the date chosen for this election has been July 28th. This will give parliament and the people the necessary 60 days in which to prepare for the fray.

It has been known for considerable time that a Dominion Election would be held this summer and the government have been preparing for it. As early as two months ago enumerators were out preparing the new Dominion Voters Lists and election material was sent out and returning officers appointed long before the date of the election was set.

NEW USE FOR WHEAT

With the present uncertainty that prevails in the wheat market the Dominion Department of Agriculture finds that farmers are paying more attention to the marketing of grain crops through live stock. Some important and interesting results have come to light, and not the least interesting is the experience of an Alberta farmer who had a light crop which he could not sell at the elevator. He had a flock of poultry and started feeding the wheat to them and marketing it in the form of eggs through the local egg pool. When the winter was over he figured up his costs and found that he had sold the wheat thus fed at an average price of \$5 per bushel. Another western farmer with a modest flock of 150 birds kept his family throughout the winter on the income of eggs, and he states that the gross income for the winter from the flock averaged \$200 per month.

"Why, old man, there were so many of us children that we had to eat at three tables, first, second and third—you know, like a church supper. I was the unluckiest little feller in the world."

"Yes? How so?" said I.

"Why," said the opponent of birth control, "I, being the youngest, always

Golf Notes

A number of the Carbon golfers motored to Irricana on Sunday last to compete in the Herald competition for this district. There were players from Trochu, Irricana and Carbon participating in the tournament and for the day L. Poxon of Carbon turned in the lowest score, an 83, for the eighteen holes. In this district there is to be 54 holes of golf played in the tournament, 18 at Irricana, 18 at Trochu and 18 at Carbon. This leaves 36 holes yet to play and it is not an easy matter to pick the champion at the present time.

The players going to Irricana from Carbon on Sunday were, Messrs. Jas. Castiglione, Hugh Brown, G. Peters, E. J. Rouleau, R. J. Fairbairn, Geo. Wise, J. A. MacDonald, F. Bessant, L. Poxon and J. J. Greenan.

The work on the Golf Course for the year has been completed with the exception of the mowing of some of the fairways and the local Golf Links are a credit to the Town of Carbon. Cement tees have been put in with mats in the centre to accommodate both right and left hand players and with the new greens the course presents enjoyable sport for golfers, both pro and duffers.

Now that the golf course is in splendid shape, local tournaments have been arranged for both ladies and gentlemen. G. G. Peters is donating two prizes for the gentlemen's handicap tournament and A. F. McKibbin will donate prizes for the ladies handicap tournament. In the men's match each player must play 12 games with different members of the club. In the ladies tournament where there are not as many entries, each lady must play every other lady. This is also a handicap tournament.

A competition will also be played by the Junior boys on the handicap basis and J. J. Greenan, president of the club, will donate prizes.

GRAND FORKS SPORT NEWS

The Grand Forks baseball team played the Ghost Pine team last Friday on the former's ground, the game ending in a win for Ghost Pine, 18-12. The final score does not give the credit to the home team that their play warranted. In the first two innings they seemed to be all up in the air, throwing wild, and allowing the visitors to get ten runs before they got down to business and began to score a few runs themselves. But the lead was too great for them to recover and the game ended with the above score.

The same evening the Webb school met the Lumni school in a very fast game of basketball, resulting in a win for Webb school, 22-10. The Webb school team played a great game, showing wonderful combination, and they kept the ball in the visitors territory most of the time.

The line-ups were as follows:

Webb—Grace Gynn, Agnes Baird, Edith Gynn, George King, Gordon McCracken; Subs., Dorothy Parkens, Olive Gynn and Stanley King.

Lumni—Belle Rooney, Irene King, Mary Gabara, Helen Kubenic, Mary Benesic.

The children of the Webb School have progressed to a remarkable degree in the realm of sport in the last two years and great credit is due to Miss Martha Gray, their teacher, for the interest she has taken and the encouragement given them in their games.

The Athletic Club held their regular afternoon program of sport on Sunday, playing several different games, and the members are pleased to note that the crowd of visitors gets larger every week. Also that a large number of new members joined last week and paid their fees. Their secretary is always on hand with a receipt book and ready to sign up any lady or gentleman who wishes to join the club.

had to eat at the third table, and—believe it or not—I was 14 years old before I knew that a chicken had anything but a neck."

LITTLE ITEMS OF LOCAL INTEREST

Mr. and Mrs. Ross Thorburn left on Tuesday of this week for a three months visit to their old home in Stanley, N.B.

Alfred Bralsher was taken to the hospital in Calgary on Sunday suffering from appendicitis. He was operated on immediately and latest reports are that he is recovering. Mrs. Bralsher accompanied her son to Calgary and returned Monday evening.

Mr. and Mrs. S. F. Torrance, Mrs. Fairbairn and Mrs. A. McLeod motored to Calgary on Saturday.

Miss Edith Bralsher returned to the Garbutt's Business college on Monday after spending a few days at her home in Carbon.

Mr. and Mrs. Carl Moorhouse left on Sunday for a three months trip to the coast. Carl will act as chauffeur for Dr. Church while driving to the coast.

The Carbon baseball boys played at Acme last Wednesday afternoon and were defeated by a score of 13-9.

Twining played here on Sunday and again the boys were defeated. This time the score was 9-5.

Scout News

CARBON BOYS SCOUTS RECEIVE SECOND CLASS BADGES

The Carbon Boys Scouts meetings ended on Thursday last until after the summer holidays. The troop has made good progress since it was organized and the following scouts were passed by F. Emery, Assistant Scoutmaster, for their Second Class Badges:

A. Morrow, J. James, N. Nash, L. Trepanier, W. Skerry and S. Poxon.

Other scouts made great progress, but did not take their badge tests.

A. B. Claypool of Swallow was a business visitor to Carbon on Saturday.

W.A. AUSTIN SETS MEETING DATES

W. A. Austin, the Independent Candidate opposing A. B. Claypool in the Didsbury Constituency for Provincial honors, has announced his dates for meetings in the Carbon district for the next week. On Saturday evening he will speak in the Tricker Hall at Swallow. The following Tuesday, June 10th, Mr. Austin will address a public meeting in the Elks' Hall, Carbon and on Wednesday evening, June 11th, he will speak in the Community Hall at Hesketh. We understand that Mr. Austin is also making arrangements to hold a public meeting in the Orkney district while in this part of the constituency.

Keeping Pace With Progress

Are we keeping pace with progress?

Progress is an illusory thing. It may be seen, but so often is not perceived. Like old age or a thief in the night, it creeps upon one unawares and suddenly one awakens to realization that some profound change has taken place, an evolution has occurred. We have not been aware of the fact because of its apparent insidiousness—because its movement towards and past us has been gradual. We have seen it unconsciously but it has been too close to us for observation.

Yet despite this seeming slow approach the thing that we call progress moves with great rapidity, but it moves continually, inexorably, a step at a time, but never halting. It is an onward march that never tires, never falters.

The only way to correctly gauge progress is in retrospect. Look back a few years, only a decade or so, and the remarkable progress which civilization makes in the course of a brief span suddenly becomes apparent with startling clarity. Yet we do not see these extraordinary and far reaching changes in the making although they are going on all the time.

Turn over the leaves of the family album and immediately the truth of the assertion stares one in the face. What an extraordinary change in style of dress, in shape of headgear, in fashion of hair dressing in a few years. It appears incredible that one really looked like that 20, 15 or even ten years ago.

But progress does not mark a changing trend in dress alone. It invades every realm of activity within the ken of human experience. In the whole field of things material and in the entire mental and even spiritual arena, a steady and unrelenting advance is being made.

Hark back but twenty years and compare the means of transportation of that time with the swift cabin monoplane and upholstered limousine of today. Contrast the crude telephone of a generation ago with the automatic and the radio of the present time. Appraise the difference between the mired prairie trail of yesteryear with the broad gravelled highway along which we roll now.

A little reflection shows that everything with which we come in contact, everything we experience, everything we do has been subject to just as remarkable an evolution as those things to which specific reference has been made. Not only has progress made radical changes in what we wear and how we travel in a few short years, but it has wrought a similar transformation in what we eat and drink, in our amusements, in our work, in our social life, in our worship and even in what we think.

In no sphere of activity, however, has this evolution been more marked in recent years as in the field of daily work, in the realm of business, in city and country. In methods of production, in modes of distribution, in processes of marketing changes have revolutionized and are continuing to revolutionize the daily life of the individual. These changes are so pronounced and so rapid that they are apparent even to the most careless onlooker.

A writer in a popular magazine recently pointed out that such swift changes are being made in the conduct of business and commerce that heads of business houses are finding it increasingly difficult to secure young men competent to engage in commercial life without first being re-trained after they have left college. The almost daily application of new scientific discoveries in the field of business results in the college student being out of date because the course, though designed for the particular vocation he intends to follow, has not kept pace with the changes taking place in the practical arena.

This evolutionary process is going on in the whole industrial field, agriculture included, but as was stated at the outset it is not always so easy to perceive it because of its constancy and its proximity.

For this reason it is perhaps a wise thing, nay, a necessary thing to sometimes pause and look back a little, make a few comparisons with the past, and in the light of these contrasts a clearer perspective may be gained of what is happening from day to day, and perhaps even an inkling may be secured of what may be expected in future.

Only by doing this can we secure the necessary vision to enable us to keep pace with progress.

Engineer Will Survey Mines

Government Official To Visit All
Important Centres During
Season

Hon. Charles Stewart, Minister of the Interior, has announced that Supervisory Mining Engineer C. C. Ross was leaving for Fort Smith. Mr. Ross will visit all the important centres of mining activity throughout the season. He will organize the work of the office and the field parties and endeavor to ascertain the needs of the prospectors and companies. Mr. Ross will then be in a position to advise the Minister of the Interior fully on all that appertains to the future of the industry.

WAS RUN DOWN NOW WELL AGAIN

Takes Pleasure In Recommending Dr. Williams' Pink Pills

To the woman in the home illness is almost a calamity. Many a woman keeps on with her household duties when she is feeling ready to drop. Her head aches, she is easily tired, is depressed and nervous and has no appetite. In a word she is anemic and badly needs help—the health-help that only Dr. Williams' Pink Pills can give her. These pills make rich, red blood which brings new strength and energy to weak, despondent sufferers. Concerning them, Mrs. Paul Rail, Coin du Blanc, Que., says: "I was badly run-down, slept poorly, and awoke as tired as when I went to bed. My appetite was poor and I felt miserable. I took six boxes of Dr. Williams' Pink Pills and they completely renewed my health."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

New Flags For Old

Fifteen Nations Have Made Change
Since World War

Fifteen nations, containing more than one-third of the world's population, are living under new flags since the World War. In addition a new flag of red, white and green is now flying in India, with its 300,000,000 people, where Gandhi's revolutionists have proclaimed independence of Great Britain. In fact since the change of colors by Russia, Germany, China and other great political divisions the probability is that not more than four flags of major nations can be universally identified today.

Attacked By Asthma. The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case the relief afforded by Dr. J. D. Kellogg's Asthma Remedy seems nothing less than miraculous. Its help is quickly apparent and soon the dreadful attack is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

Plants Large Forest Area

A forest in the embryo—250 acres of it—has been planted by the Saskatchewan forestry service, in the Prince Albert region. H. P. Eisler, forestry engineer, stated that the transplanting of 2,000,000 nursery seedlings and stock is the largest such programme in the province's history. Most of the seedlings are jack and white pine.

Spare the children from suffering from worms by using Miller's Worm Powders, a most effective vermifuge with which to combat these insidious foes of the young and helpless. It is an excellent worm destroyer, and when its qualities become known in a household no other will be used. The medicine acts by itself, requiring no purgative to assist it, and so thoroughly that nothing more is desired.

Increase In Grape Growing

The development in grape growing by J. W. Hughes, of Kelowna, furnishes some interesting data. In 1927, he had 500 baskets, in 1928, 2,500 baskets, in 1929, 20,000, and this year he expects 40,000. A winery is offering \$100 a ton for "concorda."

MINARD'S
"KING OF PAIN"
LINIMENT

Investments Along the National Show Increase

Over Seventy-Four Million Involved
In Establishing Industrial Plants

New industrial plants established along the lines of the Canadian National Railways, in 1929, involved a total capital investment by the industries of \$74,106,10, according to the annual report of William Phillips, manager of the Industrial Department of the system. This was an increase of \$696,300 over the previous year, when the expenditure was \$73,409,800. Additions to plants already existing represent an investment of \$33,361,000, an increase of \$8,792,200 over 1928. On the Grand Trunk Western lines of the system, the capital investment by industry for new plants and branches totalled \$11,729,000. While this was a decrease of \$7,500,400, there was an increase of \$2,227,000 in additions to plants, the total being \$11,563,000.

Canadian development from Atlantic to Pacific, Mr. Phillips indicates, was in many fields, involving such industries as: newsprint, cold storage, warehousing, grain elevators, silk mills, canning plants, foundries, distilleries, automobile plants, lumbering and mining industries. The most outstanding developments in Western Canada were in mining in Manitoba, and in cold storage plants in British Columbia. The Hudson Bay Mining and Smelting Company, and the Sherritt-Gordon Mines, Ltd., at Flin Flon, and Sherridon, expended \$10,000,000, while two cold storage plants, costing more than \$3,000,000, were established at New Westminster and Victoria, B.C. New elevators in the west represented an investment of \$1,345,600 and new oil warehouses, \$482,000.

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

The Practical Way

They have a practical way of doing things in the west, says the Toronto Globe. For instance, the Saskatchewan Department of Agriculture has bought a farm "absolutely polluted with weeds," and will proceed to make it blossom as the rose. A demonstration of this kind will be worth a thousand lectures on the best way to get rid of noxious growths on the farm.

Minard's for Insect Bites.

Dairying and Mining

The annual value of Canadian dairy products—\$297,625,000—is a few million dollars less than the annual value of the mineral production of the Dominion. A total of 286,000 farmers supplied milk and cream to the 2,833 dairy factories throughout the Dominion last year.

You will sleep more soundly than ever before in your cosy Third Class stateroom on a Canadian Cunardship. Soft mattresses, spotless linen, warm blankets, feather pillows, bedspreads, clean towels, large mirror and washstand, plenty of soap and water, cleanliness everywhere... and trained stewards to wait on you.

All this is part of Third Class service on this famous Line. This service means that you eat, sleep and play as you never did before, on the voyage over and back.

Make sure you are going to enjoy the trip by sailing Cunard to the Old Country.

HUNTER-MARTIN & CO., REGINA, SASK.

AMOUNTS PAID ON SUBSIDIES ARE ANNOUNCED

Ottawa, Ont.—Further information of the amount of money paid by the Dominion Government to the provinces was given to the House of Commons by Hon. C. A. Dunning, minister of finance, in reply to questions from F. G. Sanderson (Liberal, Perth Sound). It sets out the amounts which will be paid to the western provinces by way of subsidies after the agreements with the prairie provinces, for the transfer of the natural resources and the agreement with British Columbia for the transfer of the railway belt and the Peace River block shall have come into effect. The payments will vary according as the population of the provinces increases.

The annual subsidy to Saskatchewan on the basis of the present population of 859,000 will be \$2,063,295. When the population reaches 1,200,000 the subsidy will have increased to \$2,710,375.

The subsidy to Alberta at present will be \$1,670,435. When the population reaches 800,000, it will be \$2,015,375, and when it reaches 1,200,000, it will be \$2,710,375.

On the basis of its present population, Manitoba will receive \$1,662,084.18 annually. When the population reaches 800,000, this will have increased to \$1,991,584.18, and when the population reaches 1,200,000 there will have been a further increase of \$2,686,584.18. In the intervening years the total payment will vary according to population.

British Columbia on its present population will receive an annual grant of \$738,916.66. This per capita grant will increase as the population increases. The grant for government and legislation will also increase from \$190,000 to \$220,000 when the population exceeds 800,000, and to \$240,000 when the population exceeds 1,500,000.

Will Continue Coal Rates

Extension Granted On Alberta Coal For Another Year

Drumheller, Alberta. — Eastern freight rate on Alberta coal, reduced a few years ago to aid the marketing of western coal in the east, will be continued for another year.

A wire to this effect has been received here from E. J. Garland, U.F.A., M.P. for Bow River, who stated that after making insistent demands for this extension the government agreed to have an order-in-council passed forthwith.

Mounties Leave For England

To Compete In International Horse Show At London

Ottawa.—A detachment of Royal Mounted Police to compete in the forthcoming International Horse Show at Olympia, London, sailed from Montreal on May 29. Major T. Dann, senior ranking inspector of Canada's celebrated force, is in command. The riders and their mounts have been put through a strenuous period of training in Regina and Ottawa.

Want Action On Survey

Ottawa, Ont.—It is highly advisable that both the Canadian National Railways and the Canadian Pacific Railway undertake a joint survey of an outlet to the Pacific coast. If that is not done within a year then the present administration, if returned to power, will take steps to have such work begun, declared the prime minister, Mackenzie King, in the House of Commons recently.

Administration Is Costly

Ottawa.—Expenditures for the administration of the opium and narcotic drug act have increased since 1926 from \$27,452.89 to \$62,110.83 in 1930, according to a return tabled in the House of Commons here.

To Make Tour Of Canada

Montreal. — Hon. R. B. Bennett, leader of the Conservative Party in Canada, will make a tour of Quebec and address political rallies at several points during the coming election campaign.

W. N. U. 1840

Senate Approves Grain Act

Given Three Readings and Passed Within Few Minutes

Ottawa, Ont.—Approval was given by the Senate to the consolidated draft of the Canada Grain Act which was prepared by a special committee of the House of Commons, during the present session. Within the space of a few minutes, the bill was introduced by Hon. Raoul Dandurand, government leader, given three readings and passed.

Senator A. B. Gillis protested against the bill being introduced so late in the session, making a careful study of it practically impossible. If this practice were followed all the time, the Senate would be "nothing but a rubber stamp" for the Commons, he said.

Fire In Alberta College

Main Building and Boys' Dormitory Were Destroyed

Lacombe, Alberta. — Fire, which broke out in the Canadian Junior College here, destroyed the main building and boys' dormitory. The loss is estimated at \$100,000.

Five boys, who with some 200 others escaped in their night clothes, received burns and were taken to the Lacombe hospital.

The college is the only Adventist institution of the kind in western Canada. There were three buildings on the site, the other being the girls' dormitory, which was saved. Erection of the structure was carried out some 20 years ago.

Canadian Nurse Killed In Italy

Car Left Road After Collision and Plunged Down Ravine

Florence, Italy.—Miss Helen Gee, 22, a United States girl, whose home is in Denver, Colo., and Miss Ruth Henderson, 32, a Canadian nurse, employed in John Hopkins Hospital, Baltimore, Md., were killed in an automobile accident near Ronta, 48 miles from here.

The automobile in which the two women were travelling collided with another automobile, left the road and plunged 250 feet down a ravine. The car was loaded with suit cases which showed that they were touring Italy.

Smelter For Far North

To Operate In Copper Mines On Great Slave Lake

Edmonton.—Within another 18 months a huge oil-burning smelter will be going full blast on the southeast corner of Great Slave Lake, turning the deposits of rich copper ore of this region into ingots to be transported to the markets of the world through Edmonton, according to plans of the Atlas Exploration Company, the Consolidated Smelters and Ventures, Limited, generally recognized as the three most powerful mineral development companies in Canada.

Gift Of Conservative Members

Huge Loving Cup Presented To Hon. R. B. Bennett

Ottawa.—With members and Senators thronged in the party caucus room of the House of Commons, Conservatives presented their leader — Hon. R. B. Bennett — with a huge loving cup. Taken entirely by surprise and visibly moved as the two oldest of his supporters in point of years, R. S. White and W. A. Black, made the presentation, the Opposition chief-tain spoke feelingly in expressing his thanks.

Sound "Last Post" For Aviator

Ottawa.—"Last Post" was sounded and musketry rattled with the "present arms" of the firing party as a train pulled out of Union Station bearing the remains of Flight-Sergeant Robert W. Pike to Vancouver. The body of the young flyer, killed in an aeroplane crash here, May 27, will find a last resting place in his native city in British Columbia.

Plans Westward Atlantic Flight

Dublin, Ireland.—The first attempted westward crossing of the Atlantic Ocean by plane this season will be made by Capt. Charles E. Kingsford-Smith, pilot of the Southern Cross on its California-to-Australia flight, near the end of June, he said here.

SPEAKER OF SENATE

Senator A. C. Hardy, Brockville, Ont., who has been selected as Speaker of the Senate. The selection will be immediately confirmed by the government.

Veterans Can Renew Pensions

New Pension Act Contains Specific Provision For Commutations

Ottawa.—There is a specific provision in the new Pension Act in regard to veterans who were entitled to pensions but who commuted their rights for a cash sum of money.

The door to renewed pensions is now opened to these veterans. The act provides for them in this way. At the time of commutation they were conceded to be entitled to a certain monthly pension. It will be presumed that instead of making a cash settlement, they had been drawing this pension continuously. If the passing years, calculated on a monthly basis, would have equalled the amount of cash they are once more eligible for pension provided they can prove that they are suffering from war disability. They will be entitled, once the full cash amount has been taken up by the passage of time, to a pension based upon their present disability.

Flight Again Postponed

R-100 Not Coming To Canada For Some Weeks Yet

London, England.—Projected flight of the British dirigible R-100 to Canada has been postponed until the end of June or the beginning of July.

Frederick Montague, under-secretary of state for air, informed the House of Commons of the postponement, stating that repairs were required by the huge ship. Repair material will have to be manufactured specially.

While on a recent 24-hour test flight over England, the R-100 had a section of covering torn from one of her fins and later it was found that she had suffered other minor damages.

It had been expected that the R-100 would make the flight to Canada about the beginning of June.

Over Seven Million Paid In Pensions

Dominion Government Contributed Nearly Four Million To Pensions

Ottawa, Ont.—The Dominion Government has contributed a total of \$3,771,549.68 to the province in aid of old age pensions, up to the end of the last fiscal year, according to a return tabled in the House of Commons. The disbursements to the 42,553 pensioners throughout Canada amounted to \$7,542,579.12.

Following is the distribution by provinces: Alberta, 2,017 pensioners, \$267,420.04 total paid; British Columbia, 4,576 pensioners, \$2,049,674.52 total paid; Manitoba, 5,104 pensioners, \$1,649,295.67 total paid; Ontario, 26,370 pensioners, \$2,225,688.32 total paid; Saskatchewan, 4,482 pensioners, \$1,139,942.82 total paid; North-West Territories, 4 pensioners, \$557 total paid.

The apparent disproportion as between pensioners and total payments is due to the shorter period in which the act has been operating in the various provinces. British Columbia was the first to adopt the act, Ontario the last. Consequently the disbursements to British Columbia have been in progress for a much longer time than to Ontario.

Passes House Of Commons

Contributions From Companies For Campaign Purposes Allowed By Election Act

Ottawa.—The new Dominion Election Act was finally passed by the House of Commons after an amendment by J. S. Woodsworth (Labor, Winnipeg North Centre), had been accepted.

The amendment repeals a section prohibiting contributions from companies for campaign purposes. Mr. Woodsworth claimed that this provision worked a hardship on labor unions desirous of making contributions while large corporations had been able to contribute despite the section. The effect of the passing of the amendment is interpreted to mean that contributions to campaign funds from unincorporated companies and organizations will be subject to no restriction.

Wilkins May Accompany Dominion Expedition

Famous Explorer Has Permission To Go To Arctic

Ottawa.—Sir Hubert Wilkins may accompany the 1930 Arctic expedition, sent out annually by the Dominion Department of Interior, through its northwest territories and Yukon branch. It was reported that the famed Australian explorer and scientist had the permission of the department to join the expedition, which will travel north on the S.S. Beothic, and which leaves North Sydney, Nova Scotia, towards the end of July.

Saves Babies in China

Vancouver cows have become the foster mothers of children in China and Japan. Fresh certified milk is now being carried from Vancouver to the furthest ends of the earth, since New York, Montreal, Australia, South America and London, England, have already been supplied from the British Columbia port. Scientific refrigeration on the big white liners of the Canadian Pacific fleet plying between Vancouver and the Orient, is half the secret of the success of this long distance delivery of fresh milk; the other half is the quality of the product from the Brooksbank Laborator-

ies certified milk farm. Carrying milk, as fresh as when it came from the cow, from Vancouver to Shanghai, a distance of 5,419 miles, is a big job and even the speedy "Empress of Canada" took 14 days to turn the trick, counting in stops at Honolulu, Yokohama and Kobe en route.

W. F. Jones, manager and proprietor of the Brooksbank Laboratories, has a theory that the cow which feeds the child has a right to the same treatment and attention as the child's mother, and above lay-out will show something of the careful grooming and spotless cleanliness of stables and animals.

GRAIN MOVING STEADILY FROM HEAD OF LAKES

Montreal, Que.—The Montreal Star publishes the following despatch from Fort William, Ont.

"Commenting on advices from Montreal that a big movement of export grain is an immediate prospect, E. A. Ursell, chief statistician of the Board of Grain Commissioners, said the announcement was not unexpected.

"He said European buyers were commencing to take Canadian grain, and he looked for a brisk movement in June and July.

"The situation has greatly improved during the last two weeks, he said. He expected shipments from Port Arthur and Fort William to run from 13,000,000 to 20,000,000 a month, which would mean a carry-over considerably less than last year.

Fort William, Ont.—Increased shipments from the Head of the Lakes during the past few days and a great improvement in export conditions on the Atlantic seaboard are noted by E. A. Ursell, statistician to the Board of Grain Commissioners, commenting on reports from Montreal that a big movement of export grain is an immediate prospect.

Mr. Ursell points out that liner tonnage has been taken up with wheat, and five tramp vessels are now at Montreal to take on wheat for Mediterranean ports, which of itself, he says, is a very satisfactory condition, showing that there is a demand for wheat in large quantities among the continental European buyers.

"It is reported that 5,000,000 bushels of wheat were exported during week of May 19 to 24, and 4,000,000 the week before.

"Should the export movement continue for the next two months at the same rate," the statistician adds, "the carry-over of wheat in Canadian channels is not likely to be more than 80,000,000 bushels, as was indicated in a report issued four months ago by the statistician's office of the Board of Grain Commissioners.

Operating On New Time

Prairie Air Mail Making Use Of Additional Daylight

Winnipeg.—The new schedule for the Western Canada Prairie Airmail service went into effect May 27, when the plane carrying the mail for western points left Stevenson airport at 7:30.

A careful survey had shown the greatest difficulty in operating the service, due to meteorological conditions, to exist on the leg of the route between Winnipeg and Regina, and particularly at the Winnipeg end, Mr. Coolican said.

Making use of the additional hour and a half of daylight is expected to better the percentage of effective performance.

Young Aviatix Killed

Motor Stalls and Girl Fell Two Thousand Feet

Colorado Springs, Colo. — One of America's youngest aviatrices, 17-year-old Margaret Ferguson, fell 2,000 feet and was killed, while attempting desperately to start her stalled motor.

Miss Ferguson obtained her government pilot license only a few days ago. She was making a solo flight before attending her high school class when apparently motor trouble occurred. The motor was heard to restart once during the 2,000 foot plunge, but sputtered and died again.

Some War Books Criticized

Edinburgh, Scotland.—Some modern war books were described as "filthy" and inexcusable exploitation of those who lost kin in the war, by the Rev. John Calder, Campbelltown, at the Assembly of the Free Church of Scotland. "These books," said Dr. Calder, "constitute a libel on the army and a calumny on the heroic dead."

Chief Scout Re-Elected

Ottawa.—His Excellency the Governor-General was re-elected as chief scout for Canada at the annual meeting of the Canadian General Council of the Boy Scouts Association.

PERSONAL PROPOGANDA

Elections are funny things. They
cause a lot of hard feelings and in
the end everyone cannot be satisfied.
But that is not the worst about elec-
tions. In a neighboring town (by the
way, it's now a city) there are two
newspapers. The editor of one is run-
ning on a Labor ticket and it seems
that the editor of the other is bound
to defeat this candidate, although there
are seven others in the field. In the
editorial column of the latter paper
there is nothing but personal mention

made about the labor candidate. The
platform of this candidate is never
mentioned, but in regards to his per-
sonality, it would seem that he is
about the worst scoundrel in the
country. We are not in favor with
this kind of political tactics. When
the personality of a candidate comes
into an election before anything else,
there is something wrong with the
person who spreads the propaganda.
What we like to see is a fair and
square election, based on the politi-
cal platform of the parties involved
and in this way we will have a gov-
ernment that is capable of doing jus-
tice to the country and the people
therein. But, for the good of us all,
keep personality of a candidate in the
background of this and every other
election.

TRY COMMUNITY FIRST

The slogan of every citizen who
wants to see this section of the dis-
trict progress should be "Try this
Community first." It is the community
spirit that brings the citizenship
closer together and eliminates the
lines drawn by cliques. To accom-
plish anything for the good of the
community a sentiment in favor of
the proposed project must be created
and it is easy to create his sentiment
if the proper community spirit pre-
vails. Their one object of this life
should be to make the world a better
place in which to live, but this can-
not be accomplished with a citizen-
ship pulling in different directions.
The lesser differences should be for-
gotten when a project is put forth
whereby the entire community will
prosper and be benefited. If every ci-
tizen of the community would get

together and eliminate minor prejudi-
ces, work with but one object in
view, and that to make this the best
community to the present generation
that would live through the ages and
be an inspiration for future genera-
tions to continue the good work.

POWER OF ADVERTISING

Beyond all question the most potent
creator of business demands in Can-
ada is the newspaper advertisement.
Millions upon millions of dollars are
expended daily in the stores of the
Dominion because well written ad-
vertisements have directed public at-
tention to convenient, becoming, at-
tractive, useful, ornamental and suit-
able merchandise. The sale of all ne-
cessities, all luxuries, all indulgences,
is more powerfully stimulated by the
newspaper advertisement than by any
other agency. Only hunger, cold and
nakedness are comparable to the ad-
vertisement as a promoter of sales—
and even purchases of food, fuel and
clothing are directed more largely by
the business columns of the press
than by any other influence except
immediate necessity.

The largest stores in our greatest
cities have been built up by their ad-
vertising, persistent and clever invita-
tion to the public in the press to
share in their bargains. Imagine what
would happen to daily sales of mer-
chandise, real estate, theatre tickets,
insurance, books and other things,
if newspaper advertisements are pro-
hibited by law for six months. It is
not exaggeration to say that they
would drop 50 per cent.

It is not the current news of events
alone that makes the press of such
incalculable value to the nation, nor

the free editorial expression of opin-
ion. The business news of the day, as
told by business concerns in their an-
nouncements to the public, decisively
influences both the volume and the
direction of trade which flows to this
or that store, office or bank. This is
a fundamental fact no business house
can afford to overlook.

MILK SHOULD BE FED TO GROWING PIGS

(Experimental Farm Note)

Of all farm animals, pigs grow the
most rapidly and therefore require
a plentiful supply of protein and mi-
neral matter in their feed if they are
to make satisfactory gains and make
the best use of the feed consumed.
Protein is required for body devel-
opment and mineral matter is need-
ed for bone growth and other vital
purposes. Rations for growing pigs
when made up entirely of meals from
the cereal grains are unbalanced be-
cause of the insufficient and incom-
plete supply of protein and mineral

matter. Buttermilk and skim milk are
protein and mineral rich feeds and
when these are added to a cereal ra-
tion in sufficient amounts, growth is
likely to proceed normally. If butter-
milk or skim-milk is not available,
tankage, a by-product of the packing
plant, consisting mainly of sterilized
powdered meat and bone scraps, and
also rich in protein and mineral mat-
ter is recommended as a substitute
feed and if used should make up five
to eight per cent of the grain ration.

Milk has possibly its greatest value
in getting the weanling pigs off to
a good start. Care must be taken,
however, not to feed it in too large
quantities as overfeeding is danger-
ous to growing pigs.

While waiting our turn in a barber
shop here recently, we overheard a
complaint being made about excessive
charges. Mack replied, that with the
bad weather and slump in stocks,
faces were so long and glum that the
barber was operating at a loss and
the rates had to be maintained.

WEEKLY HEALTH BULLETIN
Issued by Red Cross Society

HER TENTH

In many parts of rural England tourists may see the quaint old buildings whose very stones provide sermons of bygone days, of such are the ancient Tithing Barns, in which the farmer brought his tithe of corn and produce. Red tiled and weather-beaten they have stood the test of time, and though centuries old, are mute evidences of an age when tithing was accepted as the duty of a man towards his maker.

Here and there one still meets the same spirit of unselfish sacrifice in the hearts of some men and women of kindly vision and sympathetic understanding. The following little story taken from the busy headquarters of Red Cross in Alberta, restores one's faith in humanity in these materialistic times.

The commissioner says "One day when more than usual the financial clouds were threatening, there came out of the sky a silver lining in the shape of a little working woman. She said that she was poor herself, but she had lately earned a little and she wished to dedicate her tenth to Red Cross for the care of crippled children. A dollar and some cents fell out of the envelope, but far more than in reality for with the money there came a spirit of sacrificial service that rededicated our Red Cross workers afresh to their great task of mitigation of suffering, their faith strengthened by this simple story of a country woman's loving gift."

**BANK OF MONTREAL ISSUES
STRONG FINANCIAL REPORT**

The Bank of Montreal is now forwarding to shareholders a particularly satisfactory statement for the half year to April 30th.

In the face of the unusual conditions the Bank has been able to keep strong in liquid assets and cash and at the same time show satisfactory profits. In the general statement one of the outstanding features is the increase in current loans in Canada. Both Capital and Rest are at new high levels. The paid up Capital now stands at \$36,000,000, up from \$34,548,760 a year ago, while the Rest has been increased from \$5,548,760 to \$38,000,000, at which level it is \$2,000,000 above the paid up capital.

It is likely due to the larger capital employed that the Bank has been able to report to shareholders slightly increased profits for the six months as compared with the corresponding period last year. Profits amounted to \$3,543,071, up from \$3,491,661. There were also received in the six months payments of \$51,459 as premiums on new stock. These amounts, when added to the balance carried forward, brought the total available for distribution up to \$4,330,059. This was appropriated as follows: Dividends and interest on instalment payments on new stock \$2,107,586; amount credited to Rest Account \$51,459; provision for taxes Dominion Government \$229,979; reservation for bank premises \$600,000; leaving the balance of profit and loss to be carried forward at \$1,281,033.

**Popular Play "Pollyanna"
Coming to Canadian Chautauqua**

SCENE FROM "POLLYANNA"

One of the most inspiring plays ever written is "Pollyanna," which comes to the Canadian Chautauqua here this season. Based on Eleanor Porter's famous novel by the same name, this captivating comedy-drama possesses a certain whimsical charm that reminds one of Barrie's beautiful plays. A well-known critic says: "Pollyanna" is one of those rare plays which are likely to become institutions of the stage like "Peter Pan."

"Pollyanna" abounds in fun and humor. There is not a dull moment in the four acts through which the lovable little heroine pursues her way, spreading her philosophy of gladness and winning the hearts of all whom she meets. It will be presented here by the Martin Erwin Players of Canada.

SEMI-ANNUAL STATEMENT

30th April, 1930

LIABILITIES

LIABILITIES TO THE PUBLIC

Deposits	\$ 688,067,754.78
Payable on demand and after notice.	
Notes of the Bank in Circulation	38,473,147.00
Payable on demand.	
Letters of Credit Outstanding	10,941,971.37
Financial responsibilities undertaken on behalf of customers for commercial transactions (see offsetting amount (x) in "Resources").	
Other Liabilities	8,745,783.97
Items which do not come under the foregoing headings, including \$5,000,000 advances from the Dominion Government under The Finance Act.	
Total Liabilities to the Public	\$ 746,228,657.12

LIABILITIES TO THE SHAREHOLDERS

Capital, Surplus and Undivided Profits & Reserves for Dividends	76,370,991.11
This amount represents the shareholders' interest in the Bank, over which liabilities to the public take precedence	
Total Liabilities	\$ 822,599,648.23

RESOURCES

To meet the foregoing Liabilities the Bank has

Cash in its Vaults and in the Central Gold Reserves	\$ 94,421,408.82
Notes of and Cheques on Other Banks	45,507,317.11
Payable in cash on presentation.	
Money on Deposit with Other Banks	15,448,293.39
Available on demand.	
Government & Other Bonds and Debentures	121,661,712.27
Gilt-edge Securities practically all of which mature at early dates.	
Stocks	922,087.90
Railway and Industrial and other stocks at or below market value.	
Call Loans Outside of Canada	68,028,615.57
Secured by bonds, stocks and other negotiable securities of greater value than the loans and representing moneys quickly available with no disturbing effect on conditions in Canada.	
Call Loans in Canada	27,460,856.27
Payable on demand and secured by bonds and stocks of greater value than the loans.	

TOTAL OF QUICKLY AVAILABLE RESOURCES
(equal to 51.03 of all Liabilities to the Public)

Other Loans	417,998,828.93
To manufacturers, farmers, merchants and others, on conditions consistent with sound banking.	
Bank Premises	14,500,000.00
Two properties only are carried in the names of holding companies; the stock and bonds of these companies are entirely owned by the Bank and appear on the books at \$1.00 in each case. All other of the Bank's premises, the value of which largely exceeds \$14,500,000, appear under this heading.	
Real Estate and Mortgages on Real Estate	1,930,456.44
Acquired in the course of the Bank's business and in process of being realized upon.	
x Customers' Liability Under Letters of Credit	10,941,971.37
Represents liabilities of customers on account of Letters of Credit issued by the Bank for their account.	
Other Assets not Included in the Foregoing	3,778,095.16
Making Total Assets of	\$ 822,599,648.23
to meet payment of Liabilities to the Public of	746,228,657.12
leaving an excess of Assets over Liabilities to the Public of	\$ 76,370,991.11

PROFIT and LOSS ACCOUNT

Profits for the half year ending 30th April, 1930	\$3,543,071.87
Dividends paid or payable to Shareholders	\$2,107,586.99
Provision for Taxes Dominion Government	229,979.45
Reservation for Bank Premises	600,000.00
	2,997,566.44
Balance of Profit and Loss Account, October 31st, 1929	\$ 545,451.43
Balance of Profit and Loss carried forward	\$1,281,033.74

WORLD HAPPENINGS BRIEFLY TOLD

Dr. Charles Camsell, deputy minister at Ottawa, was chosen to head the Royal Society of Canada for the next year.

Since removing of embargo on export of precious metals in January, the amount of gold shipped from Japan totals about \$87,450,000.

Bert White, 77, leapt from an aeroplane 25,000 feet above Lancaster, California, and made a safe landing in an attempt to make a record parachute jump.

Construction of a 1,500 mile elevated electric railroad across the Sahara Desert is under discussion in Paris. The estimated cost is \$117,000,000.

William Chalmers, of Vancouver, "B.A." and "M.A." graduate of McGill University, has been awarded the Governor-General's silver medal for graduate research in chemistry.

Hon. Dr. J. H. King, Dominion Minister of Pensions and National Health, is the new president of the Canadian branch of the St. John Ambulance Association. He succeeds Senator Hewitt Bostock.

Miss Betty Carstairs has bought a whole boat building yard at Cowes, England, in order to keep secret the details of a speedboat she is building in the hope of capturing the world's speedboat title.

The Many-Purpose Oil. — Both in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

An Unusual Bequest

Deaf Woman Wills Ears To Science For Research Purposes

In the hope that medical science can aid others by a study of her ears, deaf since childhood, Miss Abby Hosmer, 70, wealthy Chicago woman, has willed them for research purposes after she dies.

The unusual will was announced by Dr. Austin A. Hayden, at a meeting of physicians and ear specialists.

"Until medical science can have opportunity to make microscopic studies of the ears of those deafened during their lifetime, we will remain considerably in the dark as to why one out of ten persons suffers from some form of this malady," Dr. Hayden said.

At any rate the Toronto Telegram points out, there are eight young citizens of Canada who are not puzzled over what they will call the new lady senator.

Changing Styles In Fiction

Each Generation Has Different Idea Of What Is Interesting

There are faint but unmistakable signs of a revulsion against the new style of war books which have been all the rage for a year past. That is as it should be, for they were neither great literature nor true to life as a rule. On the whole they were read less by grizzled veterans than by young ladies who liked being shocked by stories of strong drink and strong language at secondhand.

It was a change from what the trade called Sheik-stuff which was itself a revulsion from the Sentimental Tommy style, which was itself a novelty after strong silent men, gods in the car, and other sternly masculine types that delighted and thrilled the feminine readers of thirty years ago. So the clock of fashionable fiction goes round, and every generation worships the idols of its fathers under the delusion that they have discovered something new.

(By Annebelle Worthington).

3278

A tiered model in printed silk crepe reflects a new note in modified Princess styling, which makes it so suitable for casual daytime wear.

The tiers show a downward curving tendency at back, a clever means of lengthening the silhouette. They are finished at top with novel faille crepe silk applied band that ties in youthful bow at front.

The neckline in deep open V-shape employs the same trim for applied band. Long sleeves also gathered into cuffs of the crepe with tab ends.

Design No. 3278 comes in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

The trimming bands work out nicely cut from the dull surface in crepe satin, which is so important now in soft brown shade.

Black silk crepe, plum shade in wool crepe, tiny self-checked pattern in bottle green feather - weight woolen, tomato red crepe de chine, crepe marocain in dahlia purple and navy blue faille crepe appropriate and chic.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Minard's Drives Away the Headache.

DO YOU SUFFER FROM CONSTIPATION?

Countless remedies are advertised for constipation. Many relieve for the moment but they are habit forming and must be continued. Others contain calomel and dangerous mineral drugs, which remain in the system, settle in the joints and cause aches and pains. Some are harsh purgatives which cramp and gripe and leave a depressed after effect.

Avoid lubricating oils which only grease the intestines and encourage nature's machinery to become lazy.

A purely vegetable laxative such as Carter's Little Liver Pills, gently touches the liver, bile starts to flow, the bowels move gently, the intestines are thoroughly cleansed and constipation poisons pass away. The stomach, liver and bowels are now active and the system enjoys a real tonic effect. All druggists 25c and 75c red pkgs.

A Peculiar Accident

When the parachute worn by a mechanic flying in an army plane was accidentally opened, the mechanic was pulled into the air, smashed against the tail of the plane, and pilot and mechanic were killed when the machine fell into the sea.

Smothering Spells Couldn't Walk Far Gasped For Breath

Mrs. T. W. Roth, Kelowna, B.C., writes:—"For over a year I was troubled with smothering spells, and it was impossible for me to walk, even a short distance, on account of having to gasp for breath. A friend told me to try

which I did, and in a short time I felt much better.

"I can now recommend them to everyone."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Pedestrians who cross the streets recklessly in Berlin are to be prosecuted. After they come out of the hospital, probably.

Use Minard's for Rheumatism.

One of life's little ironies is found in the fact that a fifty-dollar telephone pole can so completely demolish a \$3,000 motor-car.

SUNDAY SCHOOL LESSON

JUNE 8

JESUS IN THE SHADOW OF THE CROSS

Golden Text: "He went forward a little and fell on His face, and prayed saying, 'My Father, if it be possible, let this cup pass away from Me: nevertheless, not as I will, but as Thou wilt.'"—Matthew 26:39.

Lesson: Matthew 26:1-75.

Devotional Reading: Psalm 42:1-5.

Explanations and Comments

Peter's Denial Foretold, verses 31-35.—On the way Jesus suddenly said, "All ye shall be offended in Me (caused to stumble by what is to befall Me) this night: for it is written (Zech. 13:7), I will smite the Shepherd and the sheep of the flock shall be scattered abroad."

Then He added the encouraging words: "After I am raised up, I will go before you into Galilee." "The Shepherd will yet again go before His flock, leading them."

"If all shall be offended in Thee," vehemently Peter exclaimed, "I will never be offended." He is not sure of the other disciples, but he is certain in regard to himself! How little he knew his own weakness!

"Forsake the Christ thou sawest transfigured, Him

Who trod the sea and brought the dead to life?

"What shouldst wring this from thee?"—ye laugh and ask.

What wrong it? Even a torchlight and a noise.

The sudden Roman faces, violent hands,

And fear of what the Jews might do! Just that.

And it is written, "I forsook and fled";

There was my trial, and it ended thus."—Browning.

"Never said Peter, but it will happen 'this night,'" said His Master. "Verily I say unto thee, that this night before the cock crow—before the dawn—thou shalt deny me thrice." Again Peter protested his loyalty and fidelity: "Even if I must die with Thee, yet will I not deny Thee." Likewise also said all the disciples.

In Gethsemane, verses 36-46.—Jesus led His eleven disciples to the Garden of Gethsemane, retracing for the last time His oft-repeated journeys thither for seasons of prayer and meditation. "Sit ye here," He said to the disciples, "while I go yonder and pray."

And He began to be sorrowful and sore troubled, and even said to His disciples, "My soul is exceeding sorrowful, even unto death." Before this He had talked calmly with His disciples of the cup He was about to drink, but now, in truth, He was "clean forespent, forespent."

"When the soul enters its Gethsemane, it withdraws a stone's cast from its most trusted friends." Jesus went forward a little, and falling on the ground prayed that if it were possible (if in accord with His Father's will), "this cup" this suffering, might pass away from Him. "Nevertheless," He added, "not as I will, but as Thou wilt."

Service Becoming Popular

Passengers Are Using Telephone On Canadian National Trains

Since the installation of telephone service on the Canadian National trains, there has been an average of six calls a trip, between Montreal and Toronto, and in the other direction, according to W. D. Robb, vice president, in whose department the service comes. Most of them have been from the train to Montreal, Toronto, Kingston, Oshawa, Hamilton, London, and other points, one being made to Ashville, New York. Several have been made to the moving train from outside points.

Persian Balm is alluringly fragrant. Adds a charming refinement to the most finished appearance. Creates and preserves complexions of surpassing loveliness and texture. Softens and whitens the hands. Cools and dispels all irritation caused by weather conditions. Swiftly absorbed by the tissues leaving never a vestige of stickiness. A peerless toilet requisite. Invaluable to all women who care for elegance and distinction.

Many Areas Tested

Since beginning the testing of cattle for tuberculosis in 1915, a total of 1,469,769 animals have been tested, in Canada and 14 areas declared free of the disease.

Minard's for Falling Hair.

Colonel Gustavo Leon, noted Mexican aviator, will attempt in May to follow the Lindbergh air trail across the Atlantic, if efforts to finance the venture are successful.

CHAPTER XV.

"Dinner is served, ladies and gents," responded Charmian; while the doctor, throwing her an appreciative smile, arose, and with the good manners Grandma had noticed on his arrival, offered his arm to the old lady.

School opened on the fifth of September. Charmian was up early that morning, but when she came downstairs she found that her boarder had been earlier still. The fire was burning brightly and the table set.

"Hello, Miss Schoolma'am," he greeted her. "Thought you might be in a fluster this morning, and like an early start. But you needn't feel too rushed because I'm going your way right after breakfast and can give you a lift."

"I don't believe you," said Charmian severely. "I think you're just saying so to save me the walk."

"Didn't you hear the telephone ring at six o'clock?" he demanded in an injured tone. "Believe it or not, it was a bona fide call in your direction. Say! what can I do next? I'd have started the coffee, but I knew you'd suspect it wasn't right."

Charmian laughed.

"You've found me out. No one's ever allowed to make my coffee. You may get the butter and cream out of the ice box, and then I'd appreciate your room more than your company. I'm excited, and likely to do some crazy thing if you divert me."

"Shall you be home at noon to see to Grandma?"

John Carter had begun taking his dinners at the hotel, and disliked them even more than Charmian suspected. Her face sobered at his question.

"That's the one cloud in my sky," she admitted. "I really can't get back; and though I'll leave everything ready in the kitchen, I hate to have her fussing around alone."

The doctor looked thoughtfully out of the window. He was to all appearances watching the Merry's Gypsy investigate an invisible mouse in the wood pile, but when he turned he said:

"Look here, Charmian, why not let me come in at noon and help? We can eat here in the kitchen, and it would be less lonely for Grandma,

wouldn't it? You can leave things half ready, and I'll do the rest. Of course there'll be days when I can't get here; but it would be better than having her eat every noon meal alone. On Saturdays and Sundays I'll go to the hotel, of course," he added. "I'm trying to lighten your work, you know, not make it harder."

The girl looked up, a grateful smile shining in her eyes and widening the pretty curve of her lips.

"What a trump you are!"

He laughed.

"Does that mean that you approve of my suggestion?"

"It does if—Would it be fair to you?" she broke off suddenly.

"Fair! You'd think it fair if you knew how I detest that hotel table! You've spoiled me completely, serving my meals as daintily as if I were an invalid. Anyhow, I like fussing 'round a kitchen. Sometimes I think I'd have been more of a success as a chef than as a doctor."

"Well," said the girl, "if you'll accept your lunch in payment for your services—"

"Charmian Davis, are you a moron?" He faced her, looking so belligerent that she had to smile. "I pay a dollar every day at that miserable joint of a hotel, and you're suggesting—"

"But you don't cook your own lunch there," she broke in seriously. "And I shan't here. I'll merely warm up the stuff you leave, and keep that precious little old lady from being lonely. And you ask me to accept food in payment. I'm surprised!"

"But—"

"There's no 'but' about it. Look here!" The doctor indulged in a bit of lightning calculation, and continued: "We'll split the difference if it makes you happier. I'm not likely to devour more than fifty cents' worth of provisions. I'll pay you that, do any necessary cooking, and, when I don't have to hurry off (and unless my practice increases surprisingly there's no danger!), I'll wash the dishes. Thus I'll be saving fifty cents a day, which means a lot to me, and you—"

"And I shall feel like a different girl," ended Charmian as he hesitated. "Really, I've dreaded leaving Grandma alone so much. I don't know how to thank you, Doctor."

"You can do so by dropping that ridiculous habit of addressing me as Doctor. I'm forgetting that I possess a Christian name. And I've had the cheek to call you Charmian for weeks."

"Every one in Wickfield calls me Charmian," she responded. "I rather expect to be addressed that way by some of my pupils! If you had been an ordinary Mister—well, I shouldn't have kept that up, of course; but Doctor, minus the Carter, has an informal sound, you know. However, I'll reform at once, though I've no doubt Grandma will consider me unmaidenly."

She laughed—broke an egg into a blue bowl, and added: "Clear out, John. It's beyond my powers to converse intelligently with a man while I get his breakfast."

Grandma, when told of the new plan, brightened visibly.

"I don't mind owning now that I've sort of dreaded my dinners," she admitted. "Somehow the days seem long with no one to speak to, though I've no doubt the neighbors will drop in more often knowing that you're not here, dearie. Some days, when there's a lot of excitement in the street, the time goes quick enough; but it'll be something to look forward to having the doctor come home at noon."

"Thanks," he said, smiling at her across the table. "I expect we'll be a regular Darby and Joan before the winter's over!"

"No reason why we shouldn't," replied Grandma, as she dipped a toast crust in her coffee. "I don't know any young man I'd rather have around, even Jimmy Bennett, and I'm as fond of Jim as if he was my own grandson. There are even times when I hope he will be; but there's no telling."

"Why, Grandma Davis!" cried Charmian. "Whoever heard such talk—and before a stranger!"

"The doctor isn't a stranger," corrected Grandma, "and even a stranger would see that Jimmy Bennett thinks the world of you, wouldn't they, Doctor?"

John Carter, who was enjoying Charmian's confusion, replied in the affirmative, and Grandma said: "The only drawback to Jimmy is his mother. She's a good woman, but terribly exacting, and she expects her boy to do just what she says. There are times when I wonder why he doesn't kick over the traces and rebel; but he's a good son, and he sees the funny side of things, too, and that makes him interesting. Many's the time he's run in to tell me a funny story—times when he knew Charmian wasn't home, and that proves that he's got a kind heart. But he's not poetic, like Charmian, and I've sometimes wondered—"

"Really," broke in Charmian, arising. "Really," broke in Charmian, arising, "though I know it's not polite to interrupt, I must start fixing your lunch, Grandma, or be late to school on my first morning. You and the doctor can take your time, but—"

She left the room, her sentence unfinished, and Grandma said: "I guess maybe she didn't want me to talk about her and Jimmy; and she's excited, too, beginning school and all. You go out, sonny and tell her not to bother with much of a meal for us today. We'll eat the left-overs."

Charmian returned that afternoon, tired but elated. Things had gone well; and she had met Doctor Howe on the way back, and ridden in with him.

"Between the two doctors I shan't get the exercise I need," she said to Grandma. "I mustn't let myself get fat as I get old."

"Fat!" snorted the old lady. "The Davises don't put on flesh, child. They're apt to be lean and spare in their old age; and your mother's people were the same. You needn't worry about getting fleshy like Lizzie Baker. She eats too much, and she never walks if she can sit."

"Well, dearie, I'm glad things went all right on your first day. And I got along real well myself. Lizzie Baker ran over to borrow some vinegar (she was making salad dressing); and Mrs. Merry stopped in for a spool of cotton and stayed an hour. The doctor warmed up things real tasty, and we had as nice a dinner as I ever ate. He had another call just as he finished doing up the dishes; and there's been a patient at the office, too. He's feeling real encouraged. He says if things continue to go on this way he'll be getting him a wife. I dunno who he'll find 'round Wickfield unless it's you, dearie, and I wouldn't mind if it was. He's got the makings of a good husband."

Charmian sat down and laughed.

"You seem bound to marry me to some one, Grandma. Are you ashamed of an old maid granddaughter? In these days a girl thinks twice before she takes on the cares of matrimony."

Cleaning British Library

Another seasonable observance is the beginning of the great spring-clean at the British Museum Library. The regular dusting brigade on the library staff is reinforced for the occasion by a band of outside specialists, so that in all about eighty men are kept busy. The dusting of books goes on systematically, of course, from January 1 to December 31.

The Berlin, Germany, police department has been given an outdoor gymnasium which 100 men can use at a time.

Relic Of Colonial Days

Victoria Will Preserve Iron House Erected Seventy Years Ago

When sappers of the Royal Engineers came to British Columbia in 1858, to build roads in the new British colony, they built their houses of iron. The engineers either were not conversant with the durability of the country's lumber or else they desired additional protection from Indian raiders.

The old iron houses were forgotten years ago, and it was thought that the last of them had been removed until workmen engaged in clearing away old buildings to make room for additions to the government buildings at Victoria, discovered the iron structure which had served as a dwelling 70 years ago. Sills under the building were found to be in good condition. They were of timber brought out from England.

Provincial government authorities upon learning the history of the iron house, ordered it placed upon a new foundation and to be preserved as a relic of old colonial days.

STURDY CHILDHOOD

The sturdy child—the bright, active little chap—is the one everybody loves. It is only the sickly, fretful child who is not attractive. It is the birthright of every child to be sturdy and well—to be able to make every one admire him. Therefore, mothers, if yours is not attractive it's your fault, not his. He must be ailing and it is up to you to see that he gets relief—that he is given a medicine that will quickly make him well and keep him well.

Baby's Own Tablets are especially designed for infants and young children. There is nothing to equal them for correcting the irregularities of the stomach and bowels—the cause of most of the ills from which little ones suffer. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Teacher: "What is an island?"
Bright Boy: "A place where the bottom of the sea sticks up through the water."

Douglas' Egyptian Liniment relieves toothache and neuralgia. Invaluable in cases of croup, sore throat and quinsy. Keep a bottle handy.

Imports of motor vehicles into China last year were more than 50 per cent. greater than in the previous 12 months.

"Skinny! I Gained 11 Lbs. in 8 Weeks and Boy Friend"

"After trying several tonics I tried Ironized Yeast. In 8 weeks gained 11 lbs., new complexion, round limbs; best of all a boy friend."
—S. M. Salino.

Men and women are amazed at gain of 5 to 15 lbs. in 3 weeks. Ugly hollows vanish. Bony limbs round out. Sallow, blemished skin gets clear and rosy like magic. Nervousness, indigestion, constipation disappear overnight. Sound sleep. New pep from very first day.

Two great tonics in one — special weight-building Malt Yeast and strengthening Iron. Pleasant little tablets. Far stronger than unmedicated yeast. Results in 1/2 time. No yeasty taste, no gas.

Don't go round "skinny," ugly, unattractive. Get Ironized Yeast from druggist today. Feel great tomorrow. Money back from manufacturer if not delighted with results.

Little Helps For This Week

"Though He slay me, yet will I trust in Him."—Job 13, 15.

Within the slender chalice of the hand

Hold fast what I give thee, and drop down

The fringes of those tender flowers of blue,

Thy wondering eyes; nor question, nor withstand

What I may give. Perchance my love hath planned

Some sweet surprise or test if thou be true;

What if it be a sprig of bitter rue.

A strange swift summons to an unknown land,

A hurting thorn, a cross? rare gifts I know

For love to bring; but wouldst thou trust me still?

Quick, dear, thine answer! "I should trust until

The hidden meaning in thy gift should show."

Ah, sweet, when God sends just such gifts to thee

Canst thou not answer Him as thou dost me?

We should see not only the hand of God, but the hand of our Heavenly Father, full of mercy and loving-kindness in all that befalls us. We should believe it to be best for us, because it is His will.

—George W. Bethune.

Baby bears are almost invariably born in the winter.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Be Certain of SAFETY Build with Gyproc

FIRE can hurl your home to destruction unless a fire-resistant material such as the new Ivory coloured Gyproc Wallboard is used in its construction.

Inexpensive, permanent, easy to apply, Gyproc Wallboard does not burn. It is exactly what you want for fire-safe walls, ceilings and partitions when you build, remodel or repair.

Ask your dealer today for full information on Gyproc Wallboard or send for interesting free book, "Building and Remodelling with Gyproc."
